

Rate of Fatal Work Injuries Per 100,000 Workers, 1992–2007¹ (Employment-Based Rates)

Source: U.S. Department of Labor, Bureau of Labor Statistics, Current Population Survey, Census of Fatal Occupational Injuries, U.S. Bureau of the Census and U.S. Department of Defense.

¹ Fatality rate is an employment-based calculation using employment figures that are annual average estimates of employed civilians, 16 years of age and older, from the Current Population Survey (CPS). In 2008, CFOI switched to an hours-based fatality rate calculation. Employment-based fatality rates should not be compared directly with hours-based rates.
